G. A. R. DEPARTMENT.

Edited by J. F. Cobb and others.

What can we expect from the two great political parties now that they have each pledged themselves to care for him who has borne the battle, and for his widow and orphan. Will they stand by their pledge or still continue to annul every bill presented to them by the old vets.

Foraker, McKinley, Henderson, Hen burn, and numerous other veterans held important places and the respect of the son brought down the convention when he interrupted Foraker's remark that the convention would "nominate a gentleman" by adding, that the nominer would not go fishing on Decoration Day. -Chronicle.

The national convention of republicans at Chicago adopted the following resolutions, which come home to every heart-veteran, son of a veteran, or n veteran at all.

We also recall with our greetings and with prayer for his recovery the name of one of our living heroes, whose memory will be treasured in the history, both of republicans and the republic, the name of that noble soldier and favorite child of victory, Philip H.

The gratitude of the nation to the defenders of the union cannot be measured by laws. The legislation of congress should conform to the pledges made by the loyal people, and be so en larged and extended as to provide against the possibility that any man who honorably wore the Federal uniform shall become an inmate of an almshouse, or dependent upon private charity. In the presence of an overflowing treasury it would be a public scandal to do less for those who valorously strove to preserve the government. We denounce the hostile spirit shown by President Cleveland in his numerous vetoes of measures for pension relief, and the action of the democratic house of representatives in refusing even consideration of general pension legislation.

LINCOLN AT GETTYSBURG.

When the national cemetery at Get tysburg was dedicated Edward Everett was the orator, and delivered a carefully prepared and able address to the assembled thousands. President Lincoln then arose and in a few words presented the grand thoughts in his famous speech. Mr. Everett, congratulating him at its conclusion said. "Mr. Lincoln, I would give all of my forty pages for your few lines!" As the twenty-fifty anniversary of the great battle has come around, let us read his words again, and never forget them:

"Four-score and seven years ago our fathers brought forth upon this continent a new nation, conceived in liberty and dedicated to the proposition that all men are created equal. Now we are engaged in a great civil war, testing whether that nation, or any nation, so conceived and so dedicated, can long endure. We are met on a great battle field of that war. We have come to dedicate a portion of that field as a fi nal resting place for those who here gave their lives that the nation might live. It is altogether fitting and proper that we should do this. But in a large sense we cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here have consecrated it far above our power to add to or detract from. The world will little note, nor long remember, what we say here, but it can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work which those who fought here have thus far so nobly carried on. It is rather for us to be here dedicated to the great task remaining before us; that from these honored dead we take increased devotion to that cause to lichouses, where quietness, neatness which they here gave the last full meas- and good order should be found, into solve that these dead shall not have died in vain; that this nation, under God, shall have a new birth of freedom, and that government of the people, by the people, and for the people, shall not perish from the earth." A petition of Chas. Garkins, whose

father owned the farm on which the battle of Bull Run was fought, has been presented to Congress asking as compensation for crops and property destroyed, \$11,317,25.—Canteen.

The editor adds: "Let Virginia look after her people, and pay them for the rained farms and homes she caused. That is the kind of "state rights" we believe in, and we say it isles of the sea. with malice toward none, and charity
